Pulse

SCU Pulse Privacy Notice

SCU Pulse is a short check-in with just three quick questions about your uni experience. Your responses help us to improve our course delivery and the overall student experience.

SCU Pulse collects ratings only – there are no written comments, so it's quick and anonymous. While your enrolment details might be used to understand who has responded (like which course or year level), you won't be personally identified in any reports.

We use Qualtrics survey software to run SCU Pulse. You can find out more about how student information is collected, stored, and used in the SCU [Privacy Notice for Students](#), and more about Qualtrics' approach in their [Privacy Policy](#).
