

The year of 2022 has been a challenging one for many people – we thank you for your continued support.

We will be closed from Thursday 22 December, 2022. Our regular sample receipting will resume on Tuesday 3 January, 2023.

To enable reporting before the end of the year, please observe the December cut-off dates:

Area of analysis	December 2022
Australian Standards Compost (AS4454), Potting Mix (AS3743), Landscape Soils (AS4419), Main Roads Compost (MRTS16 and R178)	Fri 2
Septic disposal, Phos-sorption	Thurs 8
Basic Compost	Mon 12
Contamination and all sub-contracted parameters	
Fertilisers and Haney Soil	
Main Roads Soils (MRTS16 and R178)	
Physical Parameters	
Waters	
Acid sulfate soil and rock	Thurs 15
Agricultural soil	Fri 16
Agricultural plant	Mon 19

Most samples received after the above dates will be analysed ASAP. However, completed results may not be reported until the New Year.

Samples in postal transit between 22 December and 2 January are usually held by the postal service for delivery on 3 January, 2023.

We wish you a happy, safe holiday season and a prosperous new year.

The EAL Team
