Mayu Yamada – Japan

General English

“In my class, we learn not only English, but also about Aboriginal culture. There are many chances to speak English in class, instead of just listening to what the teachers say. I think it is a good trait. Thanks to kind and enthusiastic teachers, my English is getting better. I have made many new friends from China, Japan, Brazil, France and Australia. They are kind and funny.

Every Saturday I volunteer at the koala hospital. It is a wonderful opportunity for me and is the reason I chose to study here because I really wanted to know the Australian animals. On weekends my host family takes me to many places: beaches, spots where we can see beautiful views, and the homes of relatives. They are so kind and lovely.

The quiet environment is suitable for study and the people who live here are very kind. There are many things that I didn’t realise in Japan, and studying abroad has made me more broad-minded.”
We offer a range of pathways into Southern Cross University degrees through SCU College. Depending on your requirements, the College delivers both English language and academic pathways that provide direct entry into Southern Cross University degrees.

Before I could start the degree I had to get an English language qualification to meet the IELTS requirements, so I studied the English for Academic Purposes (EAP) Program at Lismore campus. It was a great course where I learned about referencing, and had to write an essay, a report, an annotated bibliography plus do oral presentations. Doing these assignments and getting really good feedback from the lecturers gave me the confidence to undertake a postgraduate degree in English. The EAP course also introduced me to Southern Cross’ online student portal MySCU that has access to course resources, so I was able to easily jump straight into my postgraduate studies.

ENGLISH LANGUAGE PATHWAYS
Gyanu – Nepal
Undergraduate Qualifying Program graduate
Bachelor of Nursing student

“The pathway course really gave me the confidence I needed to start the Bachelor of Nursing. It taught me the basics about university, how to approach assignments, learn academic terminology, how to reference, and how to navigate the online systems. When I completed my pathway course, I went directly into my Bachelor degree. Staff at the university have been really friendly and the environment has been very supportive. I felt part of a community. Coming from another country, and now in my first year of the Bachelor of Nursing, I know that without the pathway course I would have found it a lot harder to settle into university life and my nursing studies.”
