

## ETHICS PLAN

*Some projects require an ethics plan to be developed prior to the project commencing.  
An example of this are projects funded through the ARC Discovery Program  
(from FL20/FT20/DE21/IN21/DP21 onwards).*

*If your project requires an ethics plan, please use the resource below.  
Retain the plan as you will need to make it available on request.*

*The first-named investigator must ensure that the appropriate clearances are in place before the parts of  
the project that require ethical clearances commence.*

1. Project title:

2. First-named investigator:

3. Funding provider reference (if applicable):

4. Indicate the ethical clearances required for your project (*tick all that apply*):

- Human
- Animal
- Other (e.g. biosecurity)
- None

5. What is the first stage of the project you must have ethical clearance/s secured for and the estimated date of commencement of that project stage:

6. Date this plan was created:
