

## Blackboard Portfolio

Blackboard MyPortfolio is a useful tool that can be used in teaching and learning as a place to create portfolios for professional development.

The MyPortfolio page is the launching point for viewing, creating, and reviewing portfolios. Access the My Portfolio page from the global navigation menu at the top right of the page (the area with your name). Select Tools and then click Portfolios.

Lecturers may also elect to add a shortcut to the Portfolios page from a student's Blackboard Learning Site.
